

DC 37 Education Opportunities

The DC 37 Education Fund is now accepting applications for courses beginning this September. Many classes fill up quickly so be sure to register today! For a list of current offerings, visit the [Classes and Benefits](#) page by [<< CLICKING HERE >>](#)

DC 37 Green Jobs Training Program

The Green Jobs Training Expansion Program is a grant-funded training program for eligible DC 37 members, including Local 983, to receive free, hands-on instruction in areas of need within the green economy and energy sector.

Training courses include Energy Auditing, Multifamily and Commercial Building Analyst, Carbon Accounting, LEED Green Associate, Energy Benchmarking and Construction Management. These courses and more will prepare members for certifications and licenses offered and recognized by the Building Performance Institute, Urban Green Council, and Association of Energy Engineers.

For more information on these courses and what this training can provide for you, please [<< CLICK HERE >>](#)

Computer Courses

The DC 37 Education Fund offers many different computer courses to meet the varied needs of members. Click on the class of interest to the right to learn more about the program and to register!

Changes to Tuition Reimbursement Benefit

For more information on the changes to the reimbursement benefit, please [<< CLICK HERE >>](#)

Beginning with classes, courses, and workshops taken on or after Jan. 1, 2024, eligible DC 37 members can now be reimbursed up to \$1,500 by the DC 37 Education Fund as long as the requirements for reimbursement are met. Additionally, tuition reimbursement applications can now be submitted completely online.
