

Expert Care for Neck Pain at HSS

HSS

HOSPITAL FOR
SPECIAL SURGERY

While neck pain can often be treated at home, if your symptoms don't improve, it's time to seek help. **That's where HSS experts can help.**

Neck pain can have causes not related to underlying diseases. Examples are **prolonged straining (looking up or down), sleeping in an uncomfortable position, stress, or wearing heavy necklaces.**

HSS can help **Local 983 members and their families** who have neck pain. The HSS Perform team will connect you with **in-network care** at one of our **convenient locations** in New York, New Jersey, or Connecticut.
